

ANNUAL REPORT PCAV 2010

Another busy year for our zone again with so much happening in the first seven months of the year. Our DCI/ZA panel has been busy running clinics with excellent attendances and again Brenda Mitton's junior eventing clinics have been full to capacity. Additionally our DCI/ZA panel have been kept busy catering for all of our C certificate candidates and we presently have two B candidates who were fire affected last year now continuing with this certificate which is great to see. On behalf of our Zone I wish to thank our panel for their excellent work over the year. However on a sad note Ina Moss a valued member of our panel and a huge contributor over many years to the pony club movement passed away a couple of weeks ago. Our condolences to her family.

Our fire affected clubs are up and running and will be stronger than ever. Membership in these clubs are increasing which is great to see, and when all the works are completed they will have a lot to offer their members and the community. Our members have been very thankful for the \$150.00 feed voucher received from PCAV's bushfire recovery fund and on behalf of these members I wish to thank PCAV and everyone who donated.

We are one club less this year with Laurimar Pony Club transferring into Central Zone which is a lot more convenient for them. We wish them well.

We have again been able to field teams in Dressage, Show jumping, Horse Trials, Games and the Interzone Horse Trials which had record numbers from our zone this year. Our riders have all performed outstandingly and have been a credit to the zone and to their clubs. I take this opportunity of thanking our clubs for their support over the year and for generously giving their time to help out at these events when asked. It is greatly appreciated.

Finally our zone executive who again have put in a very busy year running our zone successfully, and for giving me their continued support throughout the year I say "thank you".

Linda Smith
NMZ Zone Representative
